MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT: Briefing of Director of Air Force Legislative Liaison

1. This memorandum contains a recommendation submitted for approval of the Deputy Director of Central Intelligence. Such recommendation is contained in paragraph 4.

2. In the past there has been extremely good cooperation between this office and other offices in the Executive Branch concerned with congressional relations. A conscientious effort has been made by us to get to know the people in the Service offices including Department of Defense and also in the State Department. While the hope has been to derive mutual benefits, we have found in practice that more often the Agency receives assistance from the others. At times this has been most valuable.

3. The fact that [] and the undersigned are Air Force Reserve Officers has brought us somewhat closer to Air Force Legislative Liaison since both [] and the undersigned have served 15-day active duty tours in the past in the Air Force Legislative Liaison office. A few years ago it was thought desirable to give the senior people of Air Force Legislative Liaison a general briefing on the Agency to put them in a better position to understand the Agency and to cooperate more effectively when matters arose affecting both the Air Force and the Agency. This was a highly successful briefing. A number of the personnel have changed and we now have an informal request that a similar briefing occur. The Director, Major General P. M. Hoisington II, and the Deputy Director, Brigadier General T. G. Corbin, have both expressed an interest in such a briefing.

STAT
STAT

4. I recommend that we lay this on at a mutually convenient time and request that you preside at such a briefing. We would propose to include other senior officers of Air Force Legislative Liaison, all having TOP SECRET clearance. The briefing would be a general review of what the Agency is and what it does.

s/ John S. Warner

JOHN S. WARNER
Legislative Counsel

The recommendation in
paragraph 4 is approved.
